

T & T 2018 Awana Grand Prix

Get ready, get set...Mark your calendars: The Chapel Grand Prix will be **Wednesday, January 24, 2018**. In this, a small wood car, designed by the clubber according to set guidelines, is raced on a track. Boys & girls compete separately and cars are judged in two categories: speed and design. This is an optional event for our T&T clubbers. Parents and family members are encouraged and welcomed to attend to cheer on our racers!

New this year!!! All T&T participants have the opportunity to earn points to receive a car. Completing book sections and Bible verses, wearing their uniform, and good conduct are a few ways children may earn points. Car kits can also be purchased for \$3 from our T & T secretaries before or after clubs.

Cars must be constructed at home from these kits and directions are included in the package. We suggest that you add the wheels to your car *last*. After you are finished, you will want to transport your car with a protective box. The cars do have a weight restriction which will be checked before the race. Pinewood Derby cars are ineligible as the wheels and axles differ. Also, please note that graphite is no longer an acceptable lubricate for the regional race. Approved lubricants include Teflon, Nyloil, Pledge and Krytox.

T&T leaders will be available Wednesday evenings in the craft room at 5:30 PM during the months of December and January for any families who would like help with the cutting of the car. Please make sure your child has already decided on the design of his/her car prior to arriving.

Saturday, January 20th 10:00-11:00 AM Time Trials (Come test your car on the track. T&T leaders will be available to assist with any necessary adjustments.)

Wednesday, January 24th 5:55 PM Check In closes (All cars **MUST** be checked in ***before*** 5:55 PM) Boys voting for design and race will begin at 6:10 PM. Girls race will immediately follow the completion of the boys race.
